PLAYDOUGH

Playdough is a fun and moldable way to practice so many kindergarten skills. Try these at home:

- Roll into letters, shapes, and numbers. Can you make all the letters in your name?
- Angry? Offer your child playdough to squeeze when they have BIG feelings.
- See who can roll the longest. Is it longer or shorter than your foot?
- Snip, snip, snip. Put those prewriting muscles to work by cutting that line with scissors. Can your child cut it into 20 pieces?
